

March 24, 1976

all be on the first floor. So I immediately took this information before the Executive Board and they authorized me to make some other arrangements with DAS. This is what we have to present to you at this time. Now on the third page shows the second floor. There will be 37 Senatorial Offices, private offices with a private place for your Secretary. The research office will be moved to the first floor. The Clerk will be moved to the first floor and we will have the whole area from where Jack Roger's office is now clear around to the front of the building and right there where it says press and display will be a place for press conferences and for people that come in, their visitors to the building for a briefing. We will have all that space. The Attorney General will remain in the space that he presently has. A part of his office will be moved down to the first floor. The Treasurer will remain in his office. Now if you will turn to the first page, the green area outlines are for legislative staff space. Shows the Clerk, we are also facing West. There will be 12 Senatorial offices at the right of the at the top of the page there, there will be 12 offices for Senators. There will be a press room in the purple. There will be hearing rooms in purple and the legislative staff will be in the green area. Now I have some amendments... Alright, we have a series of amendments. On page 1-3, section 1, the amendment strikes the obsolete language and inserts "state building division" instead of "Capitol facilities planning bureau", merely changes the name of the people who are in charge of the space. I move adoption of that amendment.

CLERK: Mr. President, Senator Barnett offers an amendment to read as follows. Strike existing paragraph 2 and insert "strike original section 1".

SENATOR BARNETT: Mr. President, I would move for adoption of my amendment. All it does is clear up the language because we don't have the removing of the old bill so it's just going to take over. You can go right ahead with yours. We have to do this to correct the technical language so the bill will proceed. So I move for the adoption of the amendment.

PRESIDENT: The adoption of Senator Savage's amendment?

SENATOR BARNETT: Wait just a minute please. You found something else? I withdraw my motion.

SENATOR SAVAGE: I move for the adoption of my amendment.

PRESIDENT: Any discussion?

SENATOR SAVAGE: Merely a name change.

PRESIDENT: The question is the adoption of Senator Savage amendment. Record your vote. Have you voted? Record.

CLERK: 28 ayes, 0 nays.

PRESIDENT: Motion carries.
